**Epic backs outstanding nonprofits  
and social innovation to change  
the lives of disadvantaged youth.**

We fight for a world where every child has **a chance.**

## Changing mindsets

We advocate for a society where giving is the norm so everyone can contribute to tackling social issues.

## Changing lives

We build and manage a portfolio of rigorously vetted social organizations that use social innovation to resolve the systemic injustices affecting children and youth. We monitor their social impact and help them scale.

## Changing the way we give

We scout, design and promote innovative tools and technologies to generate donations from individuals and companies.
