EPIC SHARING PLEDGE

ENTREPRENEURS

Entrepreneurs embed social good into their success

Your Call

The Epic Sharing Pledge is designed for those who want to bind their success to their commitment to give back and support high-impact social organizations. As an individual equity owner, you elect before any exit to donate a percentage of the proceeds from your equity sale to the Epic Portfolio.

Your Pledge

As taking the Epic Sharing Pledge does not involve any transfer of assets, it does not create any liability nor does it require any board approval, legal diligence or administrative processing. Importantly, the Pledge does reduce the taxable income from the proceeds of your exit.

Your Shared Success

Taking the Epic Sharing Pledge allows you to focus on your success while ensuring it will be shared with the social organizations of the Epic portfolio. By truly embedding social good into your business, that small step today can yield tremendous support for social organizations tomorrow.

OUR MODEL

Epic partners on a pro bono basis with pledgers so 100% of the donations raised goes to the Epic portfolio organizations of their choice. Donations are eligible for tax relief in the EU and the US.
